BRIEF ABSTRACT OF LETTER.

Submits for sanction a plan and estimate amount[illegible] to Rs 6650/- for constructing a school for educating Sanitary Inspectors and for imparting instruction in the rudiments of Sanitary science to Sheikdars and others.

NOTES AND ORDERS.

Letter to Commissioner on 18.1.08

The Sanitary Commissioner in his letter No. 1751 dated the 18th December 1907, submitted a scheme for the constitution of a Sanitary Institute in Bangalore similar to the King Institute at Madras for imparting instruction in Sanitary science. This question is pending orders

NOTES—First sheet.

professors and other charges connected with the school.

The Senior Surgeon has in another reference proposed that the Sanskrit College building may be utilized for the Maternity Hospital and the present maternity Hospital building used for the purposes of the Health department buildings. The file is now before the 2nd Councillor. The Dewan has ordered that the question of providing another building for the Sanskrit College has to be decided first before it is given over for the Maternity Hospital. In these circumstances the classes may if approved be temporarily arranged in the Lynch Villa, as proposed by the Sanitary Commr., in case the formation of Sanitary school is sanctioned. The file relating to the Constitution of a Sanitary Institute in the State has been submitted to-day for orders ~~is sent to Hd Asst // on the 18th Augt 08~~. with the opinion of the Financial Secy.

Serial No. 5

From the Senior Surgeon. No. 4270 dated 22.10.08

Requests that the Laboratory lately in charge of Dr. Lehmann and the out houses attached to the building may be placed at his disposal for the Health Department, to enable the Sanitary Inspectors class, Vaccine Institute, Health museum and Sanitary Commissioner's office.

In the above letter the Senior Surgeon suggests that the building now occupied by the Chemical Examiner be handed over to Dr. Coleman who is in favour of the above proposal. He further states that he heard from Dr. Coleman that it is under contemplation to hand over Dr. Lehmann's Laboratory to the Central college instead of building a new Chemical Branch to that Institution. It is submitted that in this office No. 13592 dated the 29th June 1908, the Agricultural Chemist (Ex. 370-07) was requested to state whether he can spare any of the apparatus of his laboratory for the Central college. In reply he states that if the Agricultural Laboratory is to be closed a very large portion of the apparatus could be made use of to great advantage in the Central college for quantitative analysis.

BANGALORE.

PLAGUE DEPARTMENT.

Sir,

In continuation of this office letter No.1751 dated the 18th ~~Ultimo~~ Dec. 07, I have the honor to state that the alterations required to be effected to "Grace Villa" so that some of the rooms therein may be temporarily utilized as class rooms in connection with the training of Sanitary Inspectors are estimated to cost Rs.2000/- From the applications already being received in this office it is evident that a large number of students would seek admission each session. The affiliation of the school with the Royal Sanitary Institute,London, if sanctioned, would be a further attraction and will considerably swell the strength of the classes. The accommodation that could be provided in this building would therefore be inadequate. It is desirable that plenty of air and light must be provided and that the class rooms should, in point of construction sanitarily, be an object lesson to those that assemble there to learn the principles of Sanitation. These conditions

cannot

cannot be fulfilled in this building without considerable expense and without rendering it unfit as a dwelling house which it is now. As the school is more or less a permanent one, considering the amount and variety of work that lies before it, and the time it would take to impart instruction in the rudiments of Sanitary Science to Sheikdars, School-masters, and village heads &c as sketched out in para 3 of my letter referred to above, I would propose that a separate pukka building be put up for the purpose. I enclose herein a plan and estimate for Rs.6,650/- for favour of very early sanction. It is impossible to complete the building and fit it up ready for use before April. If the classes might assemble on the 1st of July, work should be actually started before April.

I have the honor to be,

Sir,

Your most obedient servant,

H E Drake Brockman

General and Revenue Departments.
BANGALORE.

Sir,

Adverting to para 3 of Government Proceedings No. 1065-73 San 175-07-11 dated the 30th. July 1908, regarding the prompt entertainment of Sanitary and Assistant Sanitary Inspectors, I have the honor to state that there are only 6 Sanitary and 18 Assistant Sanitary Inspectors who have registered their names for employment in the State and, unless the Sanitary school is opened, the wants of the District and Municipal Boards cannot be met. Early orders of Government are, therefore, solicited as regards the opening of the school. I may say that if there is any financial difficulty this year in the way of shifting the Sanskrit College to another site and of modifying and adding to that building so as to make it suit temporarily for the purposes of a Maternity (pending the erection of a new Maternity on the same site), the classes may be arranged for temporarily in Grace Villa, making as little alterations to the building as possible. There will then be a saving of Rs. 6,000 which has been provided for in the current year's budget for the construction of a separate building for the Sanitary School and which may be utilized for honorarium to professors and other charges connected with the school, other than cost of apparatus and fitting up. As the school is to be opened from

82772

To

K.S. Chandrasekhara Iyer Esqr., B.A.,B.L.,
Secretary to the Government of H.H. the
Maharaja of Mysore, Genl.& Rev.Deptts.,
Bangalore.

Sir,

I have the honor to invite the attention of His Highness' Government to the near approach of the new year when we hope to start the tuition courses for Sanitary -- Inspectors &c., - As there seems no likelihood of provision being made in the near or even distant future for a Mater--rity Hospital in the Port and thus place the present Ma--ternity at our disposal for the purposes of the School,it has occurred to me that the Laboratory lately in charge of Dr. Lehmann and the out houses attached should be placed at the disposal of the Health Department. I went over -- these buildings to day with Dr. Coleman. They would pro--vide.-

i. A museum
ii. A lecture room
iii. A laboratory
iv. A complete Vaccine Institute
v. An office for the Sany.Commissioner
vi. A calf

2. In fact a complete Public Health Laboratory, -- School, and Vaccine Institute.

3. There are some fittings we would not require and which

of Dr: Lehmann & the out-
houses attached, should be placed
at the disposal of the Health
Department.

which could be sent to the new Chemical branch of the Cen-
-tral College.

4 The building now occupied by the Chemical Examin
-er and Government Bacteriologist with its out buildings
could be handed over to Dr. Coleman transferring such ap-
-paratus to the Public Health Laboratory or the new Chemi-
-cal branch at the Central College as he might not require.

5. These proposals entirely meet Dr.Coleman's wishes
also.

6. Dr. Coleman by the way mentioned to me that he
heard it was proposed to hand over Dr. Lehmann's laboratory
to the Central College instead of building a new Chemical
Branch to that Institution. The proposal is too extraor-
-dinary for credence; however, he said he believed it was
actually under the consideration of Government. Well, if
such a step has been proposed to His Highness' Government
I trust it will be promptly rejected. In the first place,
it is not suited without most expensive alterations for a
school of Chemistry such as that which should form a part
of the Central College where I suppose over 100 students
will be studying the subject; and secondly, to have such
an important branch so far removed from the main College &
from the Chemical theatre so that the unfortunate students
in heats of summer or the torrents of the monsoon would
have all that distance to run from one lecture room to an-
-other, places the proposal at once outside the bounds of
anything that can be considered practical. The Laborato-
-ries and the Theatre should be together, and both should
form an integral and immediately accessible section of the
College proper, and I predict that such an arrangement as
Dr. Coleman detailed to me, if carried out, will be fraught
with the greatest inconvenience in the future both to Prin-
-cipal, Professors and Students.

I have the honor to be,
Sir,
Your most obedient servant,

John Lowe Smyth
M.D.
Lt-Col. I.M.S.
Senior Surgeon, Mysore Force.
